

Authorised Gas Tester (AGT) Fact Sheet

Course Overview

Elite Offshore, in collaboration with Myntra Global, offers OPITO-approved Authorized Gas Tester (AGT) training through e-learning. This comprehensive program equips individuals with essential skills for safe operation in confined spaces with hazardous gases. Participants learn gas detection principles, testing procedures, and emergency response through interactive modules and practical simulations.

What does this course Covers?

- Confined space criteria
- The hazards of operations in an oxygen deficient, toxic / flammable environment
- Carrying out a suitable and sufficient risk assessment
- Interpreting operational requirements
- Selecting and using PPE and RPE
- Working within the Permit to Work system
- The operating principles of atmosphere monitoring and measuring equipment
- Gas detector pre-start checks
- Calibrating the instruments used in atmospheric testing
- The behaviour of different flammable and toxic gases
- The range and frequency of tests .
- Acceptable levels of flammable and toxic gases
- Performing gas tests in sequence
- Obtaining a representative atmosphere sample.
- Where to site ongoing monitoring equipment
- Hot work and the production of flammable and toxic gases
- The principles of hot work gas testing.
- The hazards and properties of flammable gases
- The strengths and weaknesses of flammable and toxic gas detection equipment
- Locating sentinel styled equipment for optimum benefit (Fixed Gas Detector)
- Detectors used for the flammable product
- Hot work and the creation of toxic products
- How a flammable gas or vapour clouds could arrive at the hot work site

- Course Code - 022
- Duration - 8 Hours (Self paced)
- Knowledge level - Advanced
- Category - OPITO Approved, Offshore Oil and Gas
- As per the latest OPITO standard
- E - Learning

System requirement

To access the course, users will need a computer or a device with a web browser and an internet connection.

Ready to get started?

Enhance your safety capabilities in confined spaces with hazardous gases by taking the Authorized Gas Tester (AGT) e-learning course. For more details Contact us at +91 80974 72277 or mail us at info@eliteoffshore.in or training@eliteoffshore.in

About Us

Elite Offshore Pvt Ltd, established in 2015, is a leading provider of Offshore, Marine and Industrial Safety and Skill training and certification programs. With a commitment to safety, compliance, and excellence, we empower professionals worldwide with the knowledge and skills they need for success in their careers.

Ecademy was established in 2021, serves as our specialized division, providing customized E-Learning solutions designed to meet the specific needs of the industry. Through Ecademy, we offer the IADC-Accredited RigPass Online Course, alongside other valuable E-Learning programs like IMDG Code Courses, Basic First Aid, Cyber Security and many more.
