

Offshore Installation Manager Fact Sheet

Course Overview

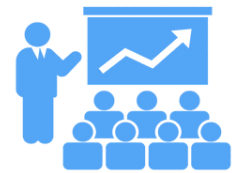

The OIM course conducted by Elite Offshore is a comprehensive program designed for mid-level and higher-level offshore rig workers who wish to work on non-propulsion vessels, MODU, Pipelay, Accommodation barges, Jack up drilling units, semi-sub, and other such installations. The course is based on IMO Resolution A.1079(28) and is approved by the Liberia (LISCR) Flag State.

flexible to meet your individual needs

client site training, depending on your personal preferences

learn from an expert trainer with years of experience

Who should enroll to this course?

This is a great opportunity for mid-level and higher-level offshore rig workers who want to advance their knowledge and skills. If you have completed the BCO course (MOU Stability) and hold at least IWCF Well Control Level 2 certification, then this course is perfect for you.

The OIM course is designed to enable prospective and incumbent MOU OIMs to practice and implement the actions and procedures required to safely manage an MOU under operating conditions. By taking this course, you will gain the knowledge and skills you need to become a successful OIM and ensure safe operations on the rig.
