

# Helicopter Underwater Escape Training (HUET) Fact Sheet

## Course Overview

The Helicopter Underwater Escape Training (HUET) at Elite Offshore Pvt Ltd, is designed by OPITO, equips participants with vital skills for emergency scenarios involving helicopter ditching at sea. The practical course covers the use of breathing apparatus, underwater escape techniques, and safety procedures during helicopter evacuation, ensuring readiness for offshore operations.

## Who should enroll to this course?

The Helicopter Underwater Escape Training (HUET) Course is essential for anyone who works in or around offshore or marine environments. This includes personnel such as offshore oil and gas workers, naval and coast guard personnel, search and rescue teams, and others who may be required to travel by helicopter over water.

The course is designed to equip participants with the necessary skills and knowledge to effectively respond to helicopter emergencies and survive unaided in the event of a water landing or ditching.

## What does this course Covers?

- Donning an aviation transit suit, aviation lifejacket and EBS and conducting EBS integrity checks.
- Actions to take in preparation for a helicopter ditching and an emergency landing.
- Actions following a controlled emergency descent to a dry landing with evacuation via a nominated exit.
- Deployment, operation and breathing from EBS in a pool utilising personal air prior to HUET exercises (delegate to experience positive and negative pressure created by the body orientation in water).
- Actions following a controlled ditching on water (including deploying EBS and, on instruction from aircrew, operation of a push out window) and evacuate through a nominated exit to an aviation liferaft.
- Assist others where possible in carrying out initial actions on boarding the aviation liferaft, to include mooring lines, deploying the sea anchor, raising the canopy and raft maintenance.
- Escaping through a window opening which is underwater, from a partially submerged helicopter (without deploying EBS or operation of a push out window).
- Escaping through a window opening which is underwater, from a partially submerged helicopter (deploying, operating and breathing from EBS equipment but without operation of a push out window).
- Escaping through a window opening which is underwater, from a partially submerged helicopter (deploying, operating and breathing from EBS equipment and operation of a push out window).

- Course Code - 207

- Duration - 1 Day

- Knowledge level - Beginner

- Category - Offshore Oil & Gas

- Offline/Client Site

- Escaping through a window opening which is underwater, from a capsized helicopter (without deployment of EBS or operation of a push out window).
- Escaping through a window opening which is underwater, from a capsized helicopter (deploying and operating EBS on the surface prior to capsize but without operation of a push out window).
- Inflating an aviation lifejacket and deploying a spray visor in water
- Boarding an aviation liferaft from water.

## Ready to get started?

Enroll in our classroom-based training at Navi Mumbai campus or you can request your preferred location. Take the first step towards being prepared for offshore emergencies.

## About Us

**Elite Offshore Pvt Ltd**, established in 2015, is a leading provider of Offshore, Marine and Industrial Safety and Skill training and certification programs. With a commitment to safety, compliance, and excellence, we empower professionals worldwide with the knowledge and skills they need for success in their careers.

**Ecademy** was established in 2021, serves as our specialized division, providing customized E-Learning solutions designed to meet the specific needs of the industry. Through Ecademy, we offer the IADC-Accredited RigPass Online Course, alongside other valuable E-Learning programs like IMDG Code Courses, Basic First Aid, Cyber Security and many more.
