

DESIGNATED PERSON ASHORE (DPA)

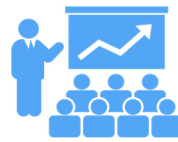

Fact Sheet

Course Overview

The Designated Person Ashore (DPA) course equips maritime professionals with the knowledge and skills to fulfill the responsibilities outlined in the International Safety Management (ISM) Code. It covers the implementation and maintenance of the Safety Management System (SMS), risk assessment, internal audits, accident investigation, emergency preparedness, and regulatory compliance. The course also emphasizes effective communication between ship and shore, enabling participants to support safe vessel operations and continuous improvement of safety management practices.

Who should enroll to this course?

The Bridge Team & Resource Management (BTRM) course is essential for Masters, Chief Officers, Deck Officers, and other bridge watchkeeping personnel responsible for safe navigation and vessel operations. It is also beneficial for maritime professionals seeking to strengthen their leadership, communication, teamwork, and decision-making skills on the bridge.

The course is ideal for officers working on merchant vessels, offshore support vessels, tankers, passenger ships, and other marine operations where effective bridge resource management is critical to safety and operational efficiency.
