

Bridge Team & Resource Management

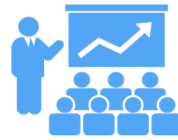

Fact Sheet

Course Overview

The Bridge Team & Resource Management (BTRM) course equips Masters, Chief Officers, and Deck Officers with essential skills to enhance navigational safety through effective teamwork, leadership, communication, and decision-making. The training focuses on optimal use of bridge resources, situational awareness, workload management, risk assessment, and emergency response to minimize human error and support safe, efficient vessel operations in compliance with STCW requirements and industry best practices.

Who should enroll to this course?

The Bridge Team & Resource Management (BTRM) course is essential for Masters, Chief Officers, Deck Officers, and other bridge watchkeeping personnel responsible for safe navigation and vessel operations. It is also beneficial for maritime professionals seeking to strengthen their leadership, communication, teamwork, and decision-making skills on the bridge.

The course is ideal for officers working on merchant vessels, offshore support vessels, tankers, passenger ships, and other marine operations where effective bridge resource management is critical to safety and operational efficiency.
