- Explain key control-of-work documents and their purpose
- Identify and list typical hazards associated with rigging and lifting activities
- Explain correct and safe manual handling techniques

II. RIGGING AND LIFTING OPERATIONS

- Explain common rigging terminology
- Identify which types of lifting equipment to use for different lifting activities, explain their purpose and how to use the equipment
- Identify which types of lifting accessories to use for different lifting activities, explain their purpose and how to use the accessories
- Explain sling angles and sling tension
- Explain the purpose of inspections and 'thorough' examinations
- Explain the load characteristics that affect complexity

- Course Code - 252
- Duration - 3 Day
- Knowledge level - Beginner
- Category - Offshore Oil & Gas
- Offline/ Client Site

- Explain the purpose of a risk assessment
- Explain the purpose of a lifting plan and how to interpret information from a lifting plan
- Identify key criteria of a lifting plan
- Conduct a lifting operation working from, and conforming to, detailed criteria contained within a lifting plan
- Correctly and safely position and install lifting equipment prior to starting the lifting operation.
- Explain reasons for informing all relevant parties of impending and ongoing lifting operation
- Explain how adverse environmental factors could affect the safety of the lifting operation
- Explain how to use identification tags, colour codes to establish SWL and WLL and the certification of lifting equipment

Ready to get started?

Begin your journey in the rigging industry by enrolling in the Rigger Training Stage 1 and 2 course today. Gain essential skills, learn safety procedures, and kick-start your career in rigging operations. Join us to acquire the foundational knowledge needed for a successful and safe start in this dynamic field.

About Us

Elite Offshore Pvt Ltd, established in 2015, is a leading provider of Offshore, Marine and Industrial Safety and Skill training and certification programs. With a commitment to safety, compliance, and excellence, we empower professionals worldwide with the knowledge and skills they need for success in their careers.

Ecademy was established in 2021, serves as our specialized division, providing customized E-Learning solutions designed to meet the specific needs of the industry. Through Ecademy, we offer the IADC-Accredited RigPass Online Course, alongside other valuable E-Learning programs like IMDG Code Courses, Basic First Aid, and more.
