

# Offshore Crane Operator Stage 3 Fact Sheet

## Course Overview

Offshore crane operators who hold a Stage 3 certification are required to undergo a reassessment every two years to ensure that they maintain their certification. This reassessment can be conducted on an actual crane, or both on an actual crane and a simulator. The Stage 3 Offshore Crane Operator Competence Reassessment program is intended for operators who wish to renew their certified Stage 3 Offshore Crane Operator Competence Assessment certificate.

### Theoretical Assessment

Incorporates a classroom-based assessment comprising of questions related to crane components, checks, maintenance, functioning and handling emergency situations.

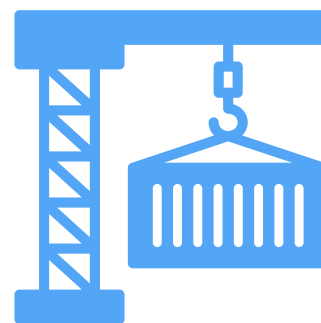

### Practical Assessment Comprises of;

- Planning the Lifting Operation
- Checks to be undertaken on the Crane Unit
- Undertaking Crane Lifting Operations Unit
- Response to Crane Malfunctions and Alarms

### Equipment Maintenance and Troubleshooting

Evaluate the operators' proficiency in skills pertaining to safe operation, routine maintenance, and troubleshooting.
