

LNG BUNKERING

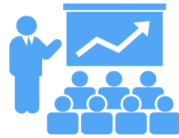

Fact Sheet

Course Overview

The LNG Bunkering Training Course offered by Elite Offshore Pvt. Ltd. is designed to provide participants with essential knowledge and practical awareness required for the safe and efficient handling, transfer, and bunkering of Liquefied Natural Gas (LNG). The course focuses on LNG properties and characteristics, bunkering operations, safety precautions, equipment and systems, transfer procedures, risk assessment, emergency response, and the prevention of hazards associated with LNG handling. It is suitable for marine and offshore personnel, vessel crew, terminal and bunkering personnel, supervisors, and professionals involved in LNG-related operations. The course emphasizes safe bunkering practices, hazard identification, operational procedures, personal safety, environmental protection, and effective emergency measures to support safe and compliant LNG bunkering operations.

Who should enroll to this course?

The LNG Bunkering Training Course is designed for marine and offshore personnel, vessel crew, bunkering personnel, terminal operators, supervisors, and professionals involved in LNG handling, storage, transfer, and bunkering operations. The course provides essential knowledge and practical awareness required to carry out LNG bunkering activities safely and efficiently.

The training covers LNG properties and characteristics, bunkering systems and equipment, LNG transfer procedures, ship-to-ship and shore-to-ship operations, hazard identification, risk assessment, PPE, fire and gas hazards, emergency response, spill prevention, environmental protection, and safe communication. Participants will develop the knowledge and skills required to identify hazards, follow safe bunkering procedures, respond effectively to emergencies, and support safe and reliable LNG bunkering operations.

What does this course Covers?

- Fundamentals of LNG Bunkering Operations, Safety Principles, and Industry Practices
- LNG Properties, Characteristics, Hazards, and Safe Handling Requirements
- LNG Bunkering Systems, Equipment, Storage Tanks, Transfer Lines, Hoses, and Connections
- Ship-to-Ship, Shore-to-Ship, and Truck-to-Ship LNG Bunkering Operations
- LNG Transfer Procedures, Bunkering Sequence, Pre-Bunkering Checks, and Communication
- Inspection and Verification of Bunkering Equipment, Connections, Valves, Hoses, and Safety Systems
- Hazard Identification, Risk Assessment, and Control Measures During LNG Bunkering Operations
- Safe Handling of LNG, Including Cryogenic Hazards, Cold Burns, Vapour Release, Fire, and Explosion Risks
- Personal Protective Equipment (PPE), Safe Working Practices, and Emergency Preparedness
- Emergency Response Procedures for LNG Leaks, Spills, Fire, Gas Release, and Equipment Failure
- Prevention and Control of LNG Spills, Vapour Dispersion, Ignition Sources, and Environmental Hazards
- Safe Access, Restricted Areas, Exclusion Zones, and Control of Ignition Sources During Bunkering
- Environmental and Weather Considerations, Including Wind, Sea Conditions, and Site-Specific Hazards
- Bunkering Checklists, Safety Documentation, Records, Permits, and Operational Procedures
- Post-Bunkering Procedures, Disconnection, Line Draining, Equipment Securing, and Safe Completion of Operations

Ready to get started?

Build essential expertise in Scaffolding Inspection and Evaluation with our comprehensive training course. Gain the fundamental knowledge and practical skills required to identify scaffolding components, conduct inspections, assess structural stability, identify defects and hazards, evaluate safe access and working platforms, and ensure scaffolding systems are maintained in safe working condition.

Take the next step toward a safer and more successful career in construction, infrastructure, industrial, offshore, and onshore operations by developing essential skills in scaffolding inspection, hazard identification, risk assessment, structural evaluation, and workplace safety. Enroll today and get started with your Scaffolding Inspector – Evaluation Course!

- Course Code - 140
- Duration - 1 Days
- Knowledge level - Beginner
- Category- Port and Marine
- Offline, Online, Client Site,E-Learning

About Us

Established in 2015, **Elite Offshore Pvt. Ltd.** is a professional training and certification provider specializing in offshore, marine, industrial, and workplace safety. We deliver industry-focused training programs designed to meet international standards and the evolving needs of today's workforce.

With experienced trainers and a comprehensive portfolio of professional courses, we empower individuals with the knowledge, practical skills, and certifications required to perform their responsibilities safely, efficiently, and confidently.

Our commitment to quality, industry relevance, and continuous improvement enables us to support organizations in strengthening compliance, reducing workplace risks, enhancing operational performance, and developing a strong and sustainable safety culture across diverse industries.
