

# Rig Mover Fact Sheet

## Course Overview

Rig Mover Course is designed by experienced professional rig move Masters who undertake such operations on regular basis. The course is highly interactive and allows the participants to learn the best practices which should be used to ensure the over all safety of the rig move operation including personnel and the vessels involved in these operations. The training aims to reduce the risks associated with MOU Move operations such as the Rig move, Jack up Move, Semi-submersible move, Anchor Handling, Escort Towing, Jack-Up Towage and Manoeuvring offshore vessels

Highly interactive where participants are encouraged to share their experience and know-how.

Trainer led - Classroom or on-line mode.

Certificates issued upon successful completion of the course.

Customize your training experience with our flexible program - we can conduct training at your preferred location upon request.

## Who should enroll to this course?

This course is suitable for individuals such as OIM and Barge Masters, Marine Pilots and Masters, and Rig Managers who are interested in broadening their knowledge of rig moving or assessing the risks associated with rig move operations.
