## What does this course Covers?

- Overview of Aerial and Scissor Lifts: Types, components, and functionalities.
- Importance of Aerial Lifts and Scissor Lifts in various industries.
- Basic safety principles and regulatory frameworks governing lift operations.
- In-depth understanding of Aerial and Scissor Lift components.
- Proper pre-operational checks, including inspections for safety mechanisms.
- Hands-on exercises in conducting pre-use inspections.
- Hands-on training in operating Aerial and Scissor Lifts safely and efficiently.
- Maneuvering lifts in different environments and conditions.
- Navigating obstacles and handling elevation changes.
- Comprehensive overview of safety protocols during lift operations.
- Emergency shutdown procedures and quick-response actions.
- Practical simulations of emergency scenarios to enhance response skills.
- Identifying potential hazards in the worksite.
- Strategies for hazard avoidance and risk mitigation.

- Course Code - 586
- Duration - 2 Day
- Knowledge level - Beginner
- Category - OSHA & Industrial Safety
- Offline/ Client Site

- Case studies and real-world examples of worksite incidents.
- Understanding load capacities and limitations.
- Proper load handling techniques.
- Importance of weight distribution for stability and safety.
- Adapting lift operations to different worksite environments.
- Site-specific hazards and precautions.
- Communication and coordination with other workers on-site.
- Routine maintenance procedures for Aerial and Scissor Lifts.
- Importance of regular inspections and servicing.
- Troubleshooting common issues and reporting mechanisms.
- Overview of local and international regulations governing lift operations.
- Importance of documentation, record-keeping, and reporting.
- Compliance with industry standards and best practices.
- Practical Assessment and Certification

## Ready to get started?

Gain the expertise to operate aerial work platforms and scissor lifts safely and effectively. Enroll in the Aerial and Scissor Lift Operator Training course today to ensure compliance with safety regulations and to protect yourself and your colleagues while working at heights.

## About Us

**Elite Offshore Pvt Ltd**, established in 2015, is a leading provider of Offshore, Marine and Industrial Safety and Skill training and certification programs. With a commitment to safety, compliance, and excellence, we empower professionals worldwide with the knowledge and skills they need for success in their careers.

**Ecademy** was established in 2021, serves as our specialized division, providing customized E-Learning solutions designed to meet the specific needs of the industry. Through Ecademy, we offer the IADC-Accredited RigPass Online Course, alongside other valuable E-Learning programs like IMDG Code Courses, Basic First Aid, and more.
