Elite Offshore Pvt Ltd

International Minimum Industry Safety Training (IMIST) - F

Fact Sheet

Course Overview

Discover the OPITO-Approved IMIST-F (International Minimum Industry Safety Training – Further), delivered through eLearning in coordination with Mintra. Designed for eligible personnel with relevant prior IMIST training or offshore work experience, this course reinforces essential health and safety knowledge for offshore operations. Strengthen your understanding of workplace hazards, safe working practices, and the procedures required to support a safer offshore working environment.

IMIST-F is designed to refresh and reinforce essential health and safety knowledge for offshore personnel, helping them maintain awareness of workplace hazards, safe working practices, and their responsibilities in offshore environments in accordance with OPITO standards.

Complete your OPITO-approved IMIST-F training online through Mintra in coordination with Elite Offshore Pvt Ltd, offering the flexibility to access the eLearning course from your preferred location and study at your own pace.

The course reinforces essential health and safety knowledge relevant to offshore oil and gas operations, helping participants refresh their understanding of workplace hazards, safe working practices, and key safety procedures.

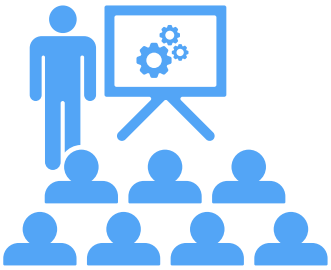

The eLearning format offers a convenient alternative to classroom-based training, helping reduce travel and accommodation expenses while allowing individuals and organizations to complete IMIST-F training online.

Engage with interactive eLearning modules and multimedia content designed to reinforce essential offshore health and safety knowledge and strengthen understanding of safe working practices.

Upon successful completion of the OPITO-approved IMIST-F eLearning course, participants receive an OPITO-recognised certificate, subject to meeting the course assessment and completion requirements, demonstrating completion of further safety training for offshore operations.
